### **DEFENDANTS' BUSINESS ACTIVITIES**

#### Overview

10. Before the recent pandemic, Defendants mostly sold drug test and professional medical equipment. After the pandemic spread to the United States, they sought to capitalize on the high demand for personal protective equipment ("PPE") by marketing and selling masks, gloves, hand sanitizer, and other PPE through their website. Defendants represented—and still

represent to this day—that they would ship all products "24-48 hours after processing, pending product availability," and that the advertised PPE was "in stock" and/or "available to ship."

- 11. Defendants' promises to ship currently available products 24-48 hours after processing are, in many cases, false. Consumers, including many small businesses and medical practitioners, have complained they still have not received PPE items they ordered weeks or even months ago. Although Defendants have repeatedly failed to ship in accordance with the periods promised on the company's website, they have not informed consumers of the delay, and ignored persistent consumer questions and refund demands.
- 12. Based on these practices, the Better Business Bureau revoked American Screening's accreditation on June 11, 2020.

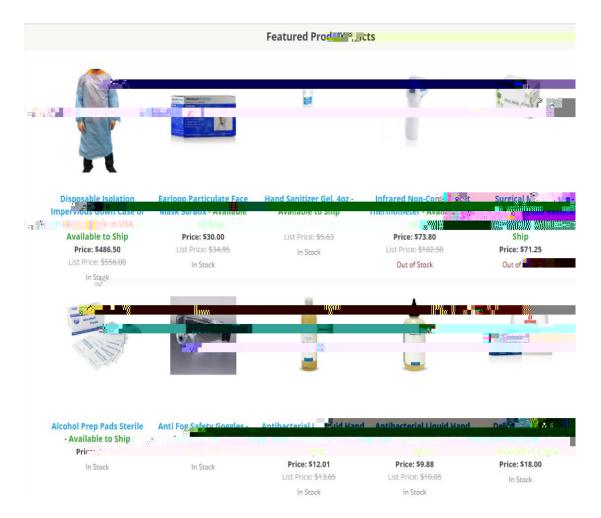

# **Defendants' Shipping Policy**

- 13. American Screening markets and sells medical supplies and equipment; medical tests (used by employers to screen employees for drug use); health, sanitation, and beauty products; and PPE to consumers throughout the United States and internationally. Defendants sell these products in bulk to hospitals, local governments, schools, and nursing homes—as well as to individual consumers.
- 14. American Screening exclusively sells these goods through its website, www.american screeningcorp.com.
- 15. American Screening ships products ordered online, and makes representations about the speed of its order processing.
- 16. Specifically, American Screening tells consumers that its practice (the "Shipping Policy") is to ship paid-for orders 24-48 hours after processing pending product availability.

21. American Screening includes a statement at the top of its home page that "[p]roducts may ship 71-0 business days after [an] order has been placed."

- 22. Despite American Screening's shipping representations, many consumers have, as of the filing of this complaint, still not receive the PPE they ordered weeks or even months after placing the orders.
- 23. American Screening's websiteentinues to make express representations next to individual items of PPE (including gloves, masks and disinfecting products) that the items are "in stock" and "available to ship." For examplemerican Screening website contained the following representation as of June 23, 2020:

24. Consumers relieded continue to rely on these representations of timely shipment, and in some cases even paid for expedited shipping, only to wait weeks and months without receiving the PPE they ordered.

# <u>Defendants' Failure to Ship PPE During Pandemic</u>

- 25. American Screening lacked a reasonable basis to believe it would be able to ship PPE within the promised time. Indeed, in response to numerous consumer complaints, its representatives regularly admitted the items consumers ordered were not in stock despite American Screening's express representation to contrary
- 26. American Screeningeceived hundreds of complaintsgarding the shipping delays. However, American Screening did not respond to many of these consumers and

continued to make the "in stock" and "available to shripp'resentation regarding PPE described above When itdid respond to consumer complaintsoften failed to offer cancelations and refunds.

- 27. For instance, one American Screeningstomer placed an order for PPE on March 18, 2020, but still had not received the items over a month later when he filed a complaint on April 24, 2020. He stated, "When the Coronavirus became known I was looking for f masks, gowns, gloves and face shields for my wife's medical practioned American Screening line thru a Google search. Their website indicated they had the gowns and the face shields so I placed an order with them for \$215. A few days laterdked their website and the site indicated my order was complete. I called and spoke to a customer service person (female) and she told me that the order showed complete because I had placed the order, they had taken my money and input the order into the vistem. I was also told that all of the items were out of stock (this status was not shown on their website) and were expected in 2 weeks at which time my order would be shipped. Over the last three weeks I have called (the answering system takes the call, transfers it and then the system disconnects my call), I have tried to leave a voice mail but the mailbox is full. I have sentneails asking for update and all to no avail. The website currently shows (as of April 24, 2020) that the order is scheduled to ship between April 6 and April 17. It is now April 24 and nothing has shipped nor been received by me."
- 28. In another complaint filed on May 27, 2020, a consu**state**d "I ordered basic sanitation supplies in bulk, because they were advertised on **tsitewes** in stock. I was provided an order confirmation number. Several days later I was informed via email that supplies were backordered. That was March 15. I waited until about the 15th of May and then began trying to contact the company through every possible avenue, to no avail. Finally, after several

days I received a call from a representative of the company who told me the product had shipped, but gave me the name of a shipping company (GLC) which I can't find ANY trace of. She wasn't able to provide

- 31. In numerous instance when American Screening iled to ship one or more pieces of ordered PPE winththe promised timeframes, and also failed to offer consumers the required opportunity to either consent to a delay in shipping or to dancine brders and receive refunds, American Screening not deem the order cancelled and issue refunds
  - 32. In numerous instaces, when American Screeninfgiled to statile comes corrormoused ti9 (ef)4 (r)-1 (a

- d. receive cancellation and refund requests from consumers pursuant to any option under MITOR, they do not deem those orders cancelled or provide a prompt refund.
- 42. Defendants' practices as alleged in Paragraphiolate MITOR, 16 C.F.R. § 435.2(a), (b), and (c), and therefore are unfair or deceptive acts or practices in violation of Section 5 of the FTC Act, 15 U.S.C. § 45(a).

- b. items will ship within 710 business dayafter an order is placed
- c. specific PPE items are "available to ship" "ior stock."
- 46. In truth and in fact, in numerous instances in which Defendants have made the representationset foth in Paragrapl45:
  - a. Defendantsailed to process orders the same day or the next day after an order was placed and then to ship those items withing the way of processing
  - Defendants failed to ship items within 170-business dayafter an order was placed
  - c. The specific PPE items Defendants represewtere "available to ship" or "in stock" were not.
