

a clear and conspicuous qualification appears immediately adjacent to the representation that accurately conveys the extent to which the product contains foreign parts, ingredients or components, and/or processing.

Part II prohibits respondents from making any representation about any user or endorser of any product, package, certification, service, practice, or program, unless respondents disclose clearly and conspicuously any material connection between a user or endorser and (1) respondents or (2) any other individual or entity affiliated with the product or service.

Part III prohibits respondents from representing, expressly or by implication, that a product or service meets respondents' certification standard, unless: (1) An entity with no material connection to that covered entity conducted an independent and objective evaluation to confirm that the certification standard was met; or (2) respondents' certification and marketing materials disclose clearly and conspicuously that the certification standard may be met through self-certification.

Part IV prohibits respondents from making any country-of-origin claim about a product or service unless the claim is true, not misleading, and respondents have a reasonable basis substantiating the representation. In the alternative, for country-of-origin representations made through AMM marketing materials, respondents may make such claims if (1) they neither know or have reason to know that the self-certification is misleading, and (2) disclose clearly and prominently that products or services meet the certification standard through self-certification.

Part V prohibits respondents from providing third parties with the means and instrumentalities to make the claims prohibited in Parts I, III, or IV.

Parts VI through IX are reporting and compliance provisions. Part VI requires respondents to acknowledge receipt of the order, to provide a copy of the order to certain current and future principals, officers, directors, and employees, and to obtain an acknowledgement from each such person that they have received a copy of the order. Part VII requires the filing of compliance reports within one year after the order becomes final and within 14 days of any change that would affect compliance with the order. Part VIII requires respondents to maintain certain records, including records necessary to demonstrate compliance with the order. Part IX requires respondents to submit additional compliance reports when requested by the Commission and to permit the Commission or its representatives to interview respondents' personnel.

Finally, Part X is a "sunset" provision, terminating the order after twenty (20) years, with certain exceptions.

The purpose of this analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the proposed order or to modify its terms in any way.

By direction of the Commission.
